

November 2023 Sewer Cleaning and Televising

The KLSWA with our engineers at Fleis & VandenBrink have contracted with Plummers Environmental for limited sewer cleaning for Fall 2023. The work is to clean the sewer system of debris, clogs and roots with possible repairs to insure better sewer service for our customers.

Plummers Environmental will be cleaning and televising the sanitary sewer system at the areas noted in RED on the attached map. This work will primarily be in Douglas and southern Saugatuck Township this year.

This work will begin November 6th until completion which may occur in December 2023.

When this cleaning is being performed near your residence you may hear odd sounds and your drains or toilets may gurgle. Please keep your toilet lids down during this timeframe in the event of sewer cleaning complications.

If you experience issues at your residence, please call the KLSWA at (269)857-2709 or Plummers Environmental at (616) 877-3930. If urgent please approach the Plummers Environmental staff immediately to address the issue.
