RE: Update on Bluestar Highway Roundabout Construction Project

---

The Allegan County Road Commission has been keeping the Township updated on the Blue Star Highway Roundabout construction efforts. It is with great excitement that we share that the project is on track to be completed earlier than anticipated, in mid-July.

Contractors will soon be paving the top layer of asphalt, which will be the final step after they complete the seeding, mulching and concrete applications to the center islands.

In the meantime, you may notice a “beachy” feel of the roundabout with natural dune grass plantings being installed next week to complement Saugatuck Township’s natural summer vegetation. In the fall, we look forward to adding an exciting new piece of artwork to the center and celebrating the added beauty and safety benefits this project will bring to the Township.

The Roundabout Project is one of many projects that Saugatuck Township has planned to create a safe street network for all. To learn more and to find out how you can lend your voice to our plans, visit <https://saugatucktownshipmi.gov/departments/planning-zoning/safe-street-planning/>.

We greatly appreciate your patience during the roundabout construction process. We know it hasn’t always been easy, but we are grateful for the collaboration of our community to see it through.
